

Description

The data presented are submitted by European Union/European Economic Area (EU/EEA) countries to ECDC through The European Surveillance System (TESSy) on scheduled dates. EU/EEA countries report aggregated data on the number of individuals receiving one vaccine dose during the reporting period starting from 01 September 2023. Doses are also reported by vaccine product.

The downloadable data files contain the data on the COVID-19 vaccine rollout mentioned above and each row contains the corresponding data for a certain month, country, target group and vaccine product. Data are subject to retrospective corrections; corrected datasets are released as soon as processing of updated national data has been completed. You may use the data in line with ECDC's [copyright policy](#).

Data dictionary

Variable	Definition	Code
YearWeekISO	Date when the vaccine was received/administered.	yyyy-MM
ReportingCountry	ISO 3166-1-alpha-2	two-letter code
Denominator	Denominators reported by countries for TargetGroup = "HCW", "Pregnant" and "Chronic".	Numeric
NumberOfIndivOneDose	Number of individuals vaccinated with one dose of the COVID_19 vaccine during each reporting period from 01 September 2023 onwards.	Numeric
Region	As a minimum data should be reported at national level (Region = country code).	Country/NUTS1 or 2/GAUL1/Country specific
TargetGroup	Target group for vaccination.	Age60_69 = 60 years to 69 years Age70_79 = 70 years to 79 years Age80+ = 80 years and over

		Age60+ = 60 years and over AgeUNK = Unknown age ALL = Individuals aged 18+ HCW = Health care workers Chronic = Adults aged between 18 and 59 years with chronic conditions Pregnant = Pregnant women
Vaccine name	Name of vaccine.	BIMER= Hipra - Bimervax COMXBB = Pfizer BioNTech – Comirnaty Omicron XBB.1.5 MODXBB = Moderna - Spikevax XBB.1.5 NVDXBB = Novavax – Nuvaxovid XBB.1.5 OTHER= Other vaccine products
Population	Overall country population obtained from Eurostat/UN	Numeric

Definitions

NumberOfIndivOneDose refers to the number of individuals who received one vaccine dose during the reporting period.

Healthcare workers (HCW) refer to those who work in healthcare settings who may come into contact with patients, including administrative staff, and home care staff.

Chronic refers to any individuals aged between 18- and 59-year-olds with underlying medical conditions with a recommendation for COVID-19 vaccination.

Pregnant refers to any pregnant woman during any pregnancy trimester who received one vaccine dose.
